

Alloy 20 Sheets & Plates

Chhajed Steel & Alloys are aggressively venturing into exporting of our products to various countries. We provide it in a wide range of specifications, sizes as per the requirement of clients. **Carpenter 20 Cb-3 Plates** is an austenitic alloy with nickel-iron-chromium based; it has excellent corrosion resistance in chemical environments which contains sulfuric acid and many other aggressive media. In order to resist intergranular corrosion, it is stabilized with niobium.

2.4660 Alloy 20 Sheet is widely used in petrochemical and refining, chemical processing, pharmaceutical, marine and food processing. Its end use applications are agitators, storage tanks, pump and valve parts, mixing tanks, fasteners, fittings and food processing equipment. As per ASME its applications are limited to a temperature of maximum 1000°F.
