

Alloy Steel P5 Pipes

Chhajed Steel & Alloys are aggressively venturing into exporting of our products to various countries. The applications of the **A335 P5 pipes** are seen in the water treatment, energy, thermal power plants, nuclear power stations and chemical industries. The sa335 P5 seamless pipe has less absolute roughness which makes the dimensions very precise. This feature is useful in applications that are sensitive where calculations have to be precise. The **ASTM a335 grade P5 welded pipe** can be used in conjunction with the other material made pipes where the application requirements allow. There are other grades of the same A335 such as the P9 and P51 which are used mostly in petrochemical industries. **ASTM A335 P5 Seamless Pipe** is one of the commonly used pipes in the refineries. It is also used in other industries. The ASME SA 335 Grade P5 Alloy Steel Pipes are made up of a chromium molybdenum alloy that makes it stronger and corrosion resistant.

The chromium addition of the **A335 P5 Chrome Pipe** is in the range of 4-6%. The P5 steel pipe material also contains other elements such as Silicon, Manganese and Phosphorus in various quantities. The ASTM a335 gr P5 seamless pipe could either be fully annealed or isothermal annealed. But the primary usage is in the refineries. The addition of nickel and manganese add up to the hardness of the pipes. So these pipes are suitable for high temperature applications. The normalized and tempered conditions are also available. The grade C of the A335 gr P5 alloy pipe can be produced in subcritical annealed condition as well.

Alloy Steel P5 Pipes, Alloy Steel P5 Welded Rectangular Pipes Manufacturers, Alloy Steel P5 Seamless Pipe Suppliers, Alloy Steel P5 Marine Exhaust Pipe Exporters Alloy Steel P5 Polished Decorative Pipe Stockists.

Alloy Steel P5 Square Pipe in India, Alloy Steel P5 Pipes Manufacturers in India, Alloy Steel P5 Rectangular Pipe Suppliers in India, Alloy Steel P5 Hydraulic Pipe Exporters in India, Alloy Steel P5 ERW Pipes Stockists in India.

Chhajed Steel & Alloy Pvt Ltd.

Office No 7, 42/46, Mughbat Lane, Shantaram Chawl, Girgaum, Mumbai - 400 004.
