

# API 5L X46 Pipes

Chhajed Steel & Alloys are aggressively venturing into exporting of our products to various countries. The **API 5L X46 PSL2 ERW**, also referred to as Electric Resistance Welding pipe is manufactured by rolling metal. Following this process, the specified API 5L X46 ERW pipe is then welded longitudinally across its length. The API 5L X46 PSL1 is manufactured by extruding the metal to the desired length. Hence, the ERW pipes will often have a welded joint in its cross-section.

The **PSL2 API 5L Grade X46 Steel Pipeline** is better in comparison to PSL1 is because the mechanical as well as the chemical properties are not only different; but we also adhere strictly to the specifications of the PSL2 API 5L X46 Pipes with regards to its chemical and mechanical requirements. Generally, the API 5L X46 ERW Pipes are used by our clients in applications involving the oil and gas sector
