

Carbon Steel Pipe

Chhajed Steel & Alloys are aggressively venturing into exporting of our products to various countries.

Schedule 40 steel pipe is an alloy of elements iron and carbon. The content of carbon present during a steel Seamless Pipe are often up to 2.1% of the entire alloys' weight. Jindal & ISMT make Low Temp Steel Pipe & steel Boiler Tubes are often used for low conveyance of materials like water, oil, air steam, gas or other fluids. **Sch 40 Seamless steel Pipe** benefits has good properties in terms of both hardness also as lastingness , but as compared to other steel grades, this massive Diameter steel Pipe is a smaller amount expensive. Seamless steel Black Pipe is extensively utilized in applied involving industries just like the shipbuilding and boiler industries, alongside nuclear device, gas conveyance also as petrochemical industries thanks to its characteristics of high corrosion resistance together with suitable mechanical properties.

The absence of those high costing alloyants is what makes the steel Welded Pipe less expensive; since the most or primary alloying materials utilized in the manufacture of this grade of **CS ERW Pipe** are only carbon and iron. aside from these two properties, the Spiral Welded Steel Pipe also has other important properties like good wear resistance and good resistance to corrosion. Any increase within the carbon percentage within the alloy wont to manufacture a totally Killed steel Erw Pipe will raise the metals hardness and lastingness properties. Although with a rise within the percent of carbon, the **CS Seamless Pipe** will lose its ductile properties. steel Seamless Pipe doesn't require additions of pricy alloyants like chromium, nickel and molybdenum.

Carbon Steel Pipes, Carbon Steel Welded Rectangular Pipes Manufacturers, Carbon Steel Seamless Pipe Suppliers, Carbon Steel Marine Exhaust Pipe Exporters, Carbon Steel Polished Decorative Pipe Stockists.

Carbon Steel Square Pipe in India, Carbon Steel Pipes Manufacturers in India, Carbon Steel Rectangular Pipe Suppliers in India, Carbon Steel Hydraulic Pipe Exporters in India, Carbon Steel ERW Pipes Stockists in India.

Chhajed Steel & Alloy Pvt Ltd.

Office No 7, 42/46, Mughbat Lane, Shantaram Chawl, Girgaum, Mumbai - 400 004.
