

DIN 2393 Grade St 44-2 Steel Pipes

Chhajed Steel & Alloys are aggressively venturing into exporting of our products to various countries. **DIN 2393-2 Grade St 44-2 bright drawn Tubes** are essentially black steel tube that has had further processing. It is processed further in cold reduction mills, where the material is cooled at room temperature followed by annealing or tempers rolling. This process will produce closer dimensional tolerances and a wider range of surface finishes. **DIN 2393 Welded Precision Steel Tubes** is used for hydraulic system steel tube, auto and motorcycle shock absorber, electric industry, construction machinery, gas spring, heat exchanger and condenser.

DIN 2393 Grade St 44-2 is a kind of structure steel. Its mechanical properties are Yield strength more than 275MPa, tensile strength 430-560Mpa. It is mainly used for welding, riveting, and bolting purposes. Structural Steels like ST 44-2 are used in many applications which need a combination of good welding properties with guaranteed strengths. Hence it is used in varied industries including civil and industrial engineering. brite 18/8". It is specified by SAE International as part of its SAE steel grades. Outside the US it is commonly known as A2 stainless steel, in accordance with ISO 3506 for fasteners.

DIN 2393 Grade St 44-2 Steel Pipes, DIN 2393 Grade St 44-2 Steel Welded Rectangular Pipes Manufacturers, DIN 2393 Grade St 44-2 Steel Seamless Pipe Suppliers, DIN 2393 Grade St 44-2 Steel Marine Exhaust Pipe Exporters DIN 2393 Grade St 44-2 Steel Polished Decorative Pipe Stockists.

DIN 2393 Grade St 44-2 Steel Square Pipe in India, DIN 2393 Grade St 44-2 Steel Pipes Manufacturers in India, DIN 2393 Grade St 44-2 Steel Rectangular Pipe Suppliers in India, DIN 2393 Grade St 44-2 Steel Hydraulic Pipe Exporters in India, DIN 2393 Grade St 44-2 Steel ERW Pipes Stockists in India.

Chhajed Steel & Alloy Pvt Ltd.

Office No 7, 42/46, Mughbat Lane, Shantaram Chawl, Girgaum, Mumbai - 400 004.
