

EN 10149-2 S420MC Steel Plates

Chhaged Steel & Alloys are aggressively venturing into exporting of our products to various countries. S420MC material properties are excellent forming high strength, good welding performance, high dimension accuracy. WNR 1.0980 PLATES are manufactured by utilizing high quality raw material and latest technology in industrial process of products under the management of our expert team. **EN 10149-2 S420MC Plates** is fine grain steel, with good cold formability. It is useful for good cold forming performance and have higher or high strength requirements of automobile girders, beams and other automobile components.

The corrosion of **EN 10149-2 S420MC STRUCTURAL STEEL PLATES** is an electrochemical process that needs simultaneous presence of oxygen and moisture. It is essentially iron in the steel that is oxidised to produce rust, which occupies approximately six times the volume of the original material.
