

High Strength Steel Sheets & Plates

Chhajed Steel & Alloys are aggressively venturing into exporting of our products to various countries. **High Strength Steel Plate** is also known for its atmospheric corrosion resistance, the degradation inflicted to materials through exposure to air-borne pollutants. It is the maximum stress that a material can withstand while being stretched or pulled before breaking. In ductile materials the ultimate tensile strength can be higher, whereas in brittle materials the ultimate tensile strength is close to the yield point. High tensile steel sheets for automobiles are the fastest growing material in today's automobile industry and the key material when it comes to vehicle mass reduction.

High tensile stainless steel plate in order to enhance passenger safety and vehicle performance by reducing the weight of vehicles has become the top priority for today's automotive industry. They tend to have higher tensile strength compared with mild steels and duplex stainless steels have higher tensile strengths than austenitic steels. High tensile aluminium plate are used in numbers of everyday applications where strength and durability are important, from planes to trains, buses to trucks and even some of the world's tallest skyscrapers.

High Strength Steel Sheets & Plates, High Strength Steel No.4 Hairline Inox Sheets Manufacturers, High Strength Steel Hot Rolled Plates Suppliers, High Strength Steel Cold Rolled Plates Exporters High Strength Steel No 4 Satin Finish Sheets Stockist.

High Strength Steel Shim Sheets in India, High Strength Steel Sheets & Plates Manufacturers in India, High Strength Steel Hot Rolled 2B finish 6mm Sheets Suppliers in India, High Strength Steel 4mm Cold Rolled Sheets & Plates Exporters in India, High Strength Steel Perforated Sheet Stockist in India.

Chhajed Steel & Alloy Pvt Ltd.

Office No 7, 42/46, Mughbat Lane, Shantaram Chawl, Girgaum, Mumbai - 400 004.
