

Nickel Alloy Sheets & Plates

Chhaged Steel & Alloys are aggressively venturing into exporting of our products to various countries. **Nickel Alloy Sheet** is a non-ferrous metal with high strength and toughness, it is a thin flat stock metal that exhibits uniform thickness and is formed from billets or ingots of nickel alloys. They are superior elevated temperature properties and excellent corrosion resistance. Pure nickel plate has features of heat conductor and corrosion resistance, particularly from chemicals and caustic substances, and it is used in heat exchangers where corrosion resistance is needed. They are a thin layer of nickel that is placed on the surface of the nickel plate with the help of electroplating.

Nickel Alloy Strip is reserved for the most demanding environments i.e for extremely high temperatures to the most corrosive of atmospheres. It is a nickel-based alloy that is used in applications that require enhanced properties. **Nickel Alloy Coil** is useful for the construction of indoor use in a residential area, for manufacturing domestic appliances, consumer goods, and furniture. They are the is a finished steel product such as sheet or strip which has been wound or coiled after rolling. High purity nickel plate improves electrical conductivity by more than 20% beyond cast products, with greater power transmission.

Nickel Alloy Sheets & Plates, Nickel Alloy No.4 Hairline Inox Sheets Manufacturers, Nickel Alloy Hot Rolled Plates Suppliers, Nickel Alloy Cold Rolled Plates Exporters Nickel Alloy No 4 Satin Finish Sheets Stockist.

Nickel Alloy Shim Sheets in India, Nickel Alloy Sheets & Plates Manufacturers in India, Nickel Alloy Hot Rolled 2B finish 6mm Sheets Suppliers in India, Nickel Alloy 4mm Cold Rolled Sheets & Plates Exporters in India, Nickel Alloy Perforated Sheet Stockist in India.

Chhaged Steel & Alloy Pvt Ltd.

Office No 7, 42/46, Mughbat Lane, Shantaram Chawl, Girgaum, Mumbai - 400 004.
