

Titanium Alloy Sheets & Plates

Chhajed Steel & Alloys are aggressively venturing into exporting of our products to various countries. **Titanium plate** suppliers are useful in various industrial applications. It is available in various grades, sizes, and specifications, they are high-strength, lightweight, low-corrosion structural metal and is used in a form of alloys for parts in high-speed aircraft. **Titanium sheet** is a very stable carbide that is readily produced, and it is quite reactive toward oxygen and nitrogen at elevated temperatures. Commercially pure titanium plate is ductile, about less than twice as dense as aluminum and half as dense as iron and it can be polished to a high luster, they are prepared is difficult because of its reactivity.

Titanium alloy thin sheet is used in applications that demand high performance and consistent quality and are lightweight and durable under harsh temperature and chemical conditions. These applications include the fabrication of electron beam equipment for food sterilization, vulcanizing, and other industrial uses. **AMS 4901 Titanium Sheet** has much higher tensile strengths than Ti itself, and they are important as an alloying agent with most metals and some nonmetals.

It provides excellent corrosion resistance in many environments due to the formation of a passive oxide surface film. Its combination of low density, high strength is quite light in comparison to other metals of similar thermal and mechanical properties, and its excellent corrosion resistance makes it useful for many parts of spacecraft, aircraft, missiles, and ships.

Titanium Alloy Sheets & Plates, Titanium Alloy No.4 Hairline Inox Sheets Manufacturers, Titanium Alloy Hot Rolled Plates Suppliers, Titanium Alloy Cold Rolled Plates Exporters Titanium Alloy No 4 Satin Finish Sheets Stockist.

Titanium Alloy Shim Sheets in India, Titanium Alloy Sheets & Plates Manufacturers in India, Titanium Alloy Hot Rolled 2B finish 6mm Sheets Suppliers in India, Titanium Alloy 4mm Cold Rolled Sheets & Plates Exporters in India, Titanium Alloy Perforated Sheet Stockist in India.

Chhaged Steel & Alloy Pvt Ltd.

Office No 7, 42/46, Mughbat Lane, Shantaram Chawl, Girgaum, Mumbai - 400 004.
